Step 1

Select MFA device

Step 2

Set up device

Set up device

Info

Authenticator app

A virtual MFA device is an application running on your device that you can configure by scanning a QR code.

1

Install a compatible application such as Google Authenticator, Duo Mobile, or Authy app on your mobile device or computer.

[See a list of compatible applications](#)

2

Show QR code

Open your authenticator app, choose **Show QR code** on this page, then use the app to scan the code. Alternatively, you can type a secret key. [Show secret key](#)

3

Type two consecutive MFA codes below

Enter a code from your virtual app below

MFA Code 1

Wait 30 seconds, and enter a second code entry.

MFA Code 2

Cancel
